DVAuction Online Only Auctions

How they work:

This means that bidders will be able to preview the lots online with complete information, including their pedigree, EPDs, and possibly a video, for several days prior to the sale. During that time, bidders can leave a maximum bid, which the system will represent confidentially up to that amount. Bidders can also bid incrementally, as the bid advances prior to the close.

All lots will close at the same time. Bidding will be extended if a bid is placed on any lot near the closing time. Bidding will officially close when there are no bids placed within a 5 minute period of time.

Welcome!

Hello and welcome to our 8th "RED TIE EVENT." We are a group of Red Angus breeders who love our red cattle and value what we can bring to you, our customer.

We provide you a spectrum of bloodlines that perform well, both in the fescue belt and beyond. We believe in making good cattle great, and hand select our very best for you. We want to produce premium cattle and we want to help you by providing valuable genetics as well as marketing options.

Quality Red Angus replacement females have been selling higher their black-hided counterparts for the last 10 years. More and more cattlemen are using Red Angus and Missouri is one of the fastest growing states in the Red Angus numbers.

Invest in a "RED TIE Ready" animal today and dress your herd for success!
